

Keeping our children safe is something as a parent we will never stop wanting to do.

Knife Crime, Hate Crime, Violence, Exploitation, all of what we want to protect our kids from.

Involve community services had been working along Bracknell Forest Council, Wokingham Borough Council and Thames Valley police to gain information about the local social issues in the area.

Have you heard of county lines?

Did you know most children are targeted from as young as 7 years old?

Did you know that this leads to other crimes and exploitation?

Aware is about bringing the community together to help raise awareness on local issues.

The AWARE campaign (Awareness with Action Reduces Exploitation) created by Involve has been sending out social media posts via public platforms in the lead up to an event we are holding on Tuesday, 24th March at Newbold College Church in Binfield. The event is free and open to any member of the public. There will be guest speakers on all topics we are focusing on, these include County lines, Child Exploitation, Modern Day Slavery, Domestic Abuse, Human Trafficking, Domestic Servitude and Knife Crime and Hate Crime. Adult and child Safeguarding Board will also have speakers.

Attendees will leave with an increased knowledge of these issues, all of which are present in our local communities, as well as signs to look out for, where to report concerns and where to go for help or more information.

To book a place at this informative event please follow this link:
