

June 2019

Dear Parents/Carers

I am pleased to inform you that the MFL department have purchased an exam practice workbook for all students in Y10.

This workbook is a very useful tool that will help students to prepare for both their forthcoming PPE examinations and the final examinations next summer. The workbooks contain practice exercises for the skills of listening, reading and writing. There are answers at the back of the book which allow students to mark their own work.

Students will be given these books by the end of this week. We would be very grateful if you could encourage them to make use of this resource.

In addition to using these workbooks, please can I take this opportunity to remind you that there are also three other online resources that students can use to help with exam preparation:

- [www.kerboodle.com](http://www.kerboodle.com) – Students can access the relevant textbook (foundation/higher) and work through the interactive, self-marking exercises
- [www.vocabexpress.com](http://www.vocabexpress.com) – This is very useful to revise vocabulary, particularly for topics that have not been covered since the beginning of the course.
- [www.senecalearning.com](http://www.senecalearning.com) – Many students have already joined classes. There is also the option to search for other relevant courses.

If you have any questions about this, please do not hesitate to contact me.

Kind Regards,

Ellie Fry

Miss E Fry (Director of English and Languages)
