## WORK EXPERIENCE WEEK FOR YEAR 10 FROM THE 18<sup>TH</sup> TO THE 22<sup>ND</sup> OF MAY- PROCESS

As part of our 5-day week of work experience, every student is encouraged to secure a placement for one to five days, which will provide the following benefits and more.

- A recognition of their own strengths, values and ambitions.
- The opportunity to start building a professional network.
- A strong, evidence-based application to Post 16 courses and institutions.
- The chance to develop a range of skills, including communication, problem-solving and teamwork skills.
- Key life lessons which will build their confidence and prove to them how capable they are.
- A greater understanding of the professional pathway which interests them.

**Work Experience will take place from the 18th of May to the 22nd of May.**

If a student is unable to secure a placement during this period, they must attend school as per the usual timetabled hours.

We are using Unifrog ([www.unifrog.org](http://www.unifrog.org)) to manage the administration of the work experience programme; for example, collecting information from the employer about their risk assessment and health & safety policy, as well as getting agreement from you for the placement to go ahead.

Students must use the details they have been provided with to log into Unifrog; the username is their school email address. If they have forgotten their password, students should simply enter their school email address and click the 'reset password' link.

- Students and families should source their own work experience placements. 
- Firstly, students/parents must agree to the placement with the employer. 
- Next, students add the placement to their Unifrog account (using their school email to log in; if they forgot their password, click on 'forgot password', and a new link will be sent to the student's school email to reset it). 
- When accessing their Unifrog account, students and parents, please select the purple 'Placement's tool' tab on their Unifrog homepage. 
- The Unifrog system will then email the employer, the parent/guardian, and the school to collect the necessary information and permissions. For the process to work, it is essential that students add the initial information about the placement accurately. 

**We have extended the deadline to the 30th of April, 2026.**

In order to make the process of preparing for work experience as meaningful as the placement itself, we request your support in communicating with your child about their thoughts and plans, as well as the challenges they might face. To help you in guiding your child, Unifrog has created a set of useful resources. Please also refer to the communication email sent on the 18<sup>th</sup> of February and again on the 18<sup>th</sup> of March for further support.

This interactive event provides an opportunity for attendees to hear the authentic experiences of Black students and alumni, gain an insight into studying at LSE, and receive bespoke guidance on how to make a competitive application. Deadline is 26<sup>th</sup> April - [Register here](#).

## JOB OF THE WEEK

[Aquaponics Technician](#)

Aquaponics is a sustainable food production system that combines aquaculture (the raising of fish) with hydroponics (the growing of plants in water).

Aquaponics technicians are responsible for the day-to-day operation of aquaponics systems, including feeding the fish, monitoring water quality, and harvesting the plants.

## LABOUR MARKET INFORMATION FACT

Jobs involving core AI-related activities are expected to grow to 3.9 million by 2035.

By then, as many as 9.7 million people may work in roles that use AI technology.
